4	Snare Top	SM57	compressor	small w/ boom, round base
5	Snare Bottom	SM57	compressor	small w/ boom, round base
6	Hi Hat	C451		tall, no boom, round base
7	Tom 1	Shure Beta 56	gate, compressor	-
8	Tom 2	Shure Beta 56	gate, compressor	-
9	Tom 3	Shure Beta 56	gate, compressor	-
10	O/H ride	Shure KSM109		tall w/ boom, tripod
11	O/H crash	Shure KSM109		tall w/ boom, tripod
12	Guitar L	SM57		small, no boom, tripod
13	Guitar R	SM57		
14	Synth L	DI		
15	Synth R	DI		
16	Keyboard L	DI		
17	Keyboard R	DI		
18	Vocal	SM58	compressor	tall w/ boom, tripod
19-20	Reverb return			

PA: It has to be loud and clear (no noise, hiss, hum or clicks), of equal L and R channels, up to 110dB (20-20000 Hz) at FoH position, 3 or 4-way system, **NO LIMITERS and/or ENHANCERS** (except if they are part of the active crossover)!

FoH: 24-channel **fully operational** mixing desk (for the clubs we bring our own), 1 Aux output (4 if the monitor lines are to be send from this desk), TRS insert points on all channels. We do prefer Allen&Heath. The desk has to be positioned at the 2/3 of the hall (or the audience area).

Monitors: 2x Floor Wedge, 1x Drum Fill.

Mains supply: 3x 220V~ 50Hz (please see the stage plan above), 1x 220V~ 50Hz next to the mixing desk for our 10-unit processor rack. All our mains plugs are of **Schuko (German standard)**.

Stage: 9x6 m ideally. Please keep the stage organized and cable-free.

Backline: We bring our own backline (for the festival – upon agreement). The guitar amp **MUST be turned on** at least half an hour before our appearance on the stage, but other bands **MAY NOT** use it. Other bands **MAY** use our drum kit (**except** the bass pedal, hi-hat stand, cymbals and snare).

HOLOGRAPHIC HUMAN ELEMENT

[Rider, cont'd]

Soundcheck and show: If the stage is clean, PA system ready and your system engineer in a good spirit ☺, our soundcheck is 45 minutes long. The show lasts for **70 minutes without any breaks** (for the festivals upon the agreement). Our sound technician **has to have** the access to the PA system and mixing desk all the time during the soundcheck and the show. We bring our own 10-unit flight case with processors and there **must be** the possibility to put it no more than 1 meter from the mixing desk. For the festivals: if the digital mixing desk is to be used, the soundcheck is a **MUST**.

Video: We have a 3x2m white screen that can be hung by rope or taped to the wall behind the drummer. We bring the LCD projector and the stand with us, but if there is a projector and the projection screen already installed in the club, we do prefer to use them. We play projections from the laptop at the keyboard position and we have a 15 meters of extension VGA cable.

Lights: Any decent lights are OK. The less moving lights, the better, but **please NO dark stage**. The Stobo or flashing lights **CAN be used moderately**.

Banner: We have a 3x2m banner that can be hung by rope or taped to the wall somewhere in the venue.

Parking: We need a safe and secure parking space for our minibus.

Accommodation for 4 persons: Any kind of decent and warm accommodation is OK (we have our sleeping bags), but **the shower with hot water and toilet is a MUST**.

Catering: Upon arrival: coffee, juice, snacks, seasonal fruits, sandwiches or deli platter. Dinner for 4 persons to be served between the sound check and the show: we are not picky, but please **no fast food**. Drinks to be served prior to the show: 8 bottles/cans of local beer (0,33l), 4 cans of Red Bull, plastic cups (**for the festivals upon the agreement**). On the stage during the show: 3 bottles of non-carbonated water (0,5l).

Merchandise: Club/festival will provide the table (or suitable place) for our merch.

Guest list: The club will provide free entrance for 4 persons. The names will be provided before the door opens.

Promotional material: Holographic Human Element may provide printing house files for our B2 color posters.

PLEASE NOTE THAT THESE ARE IDEAL CONDITIONS, EXCEPT BOLDED ITEMS THAT ARE OBLIGATORY. FOR ANY FURTHER QUESTIONS, PLEASE CONTACT:
